

Tribal Lands

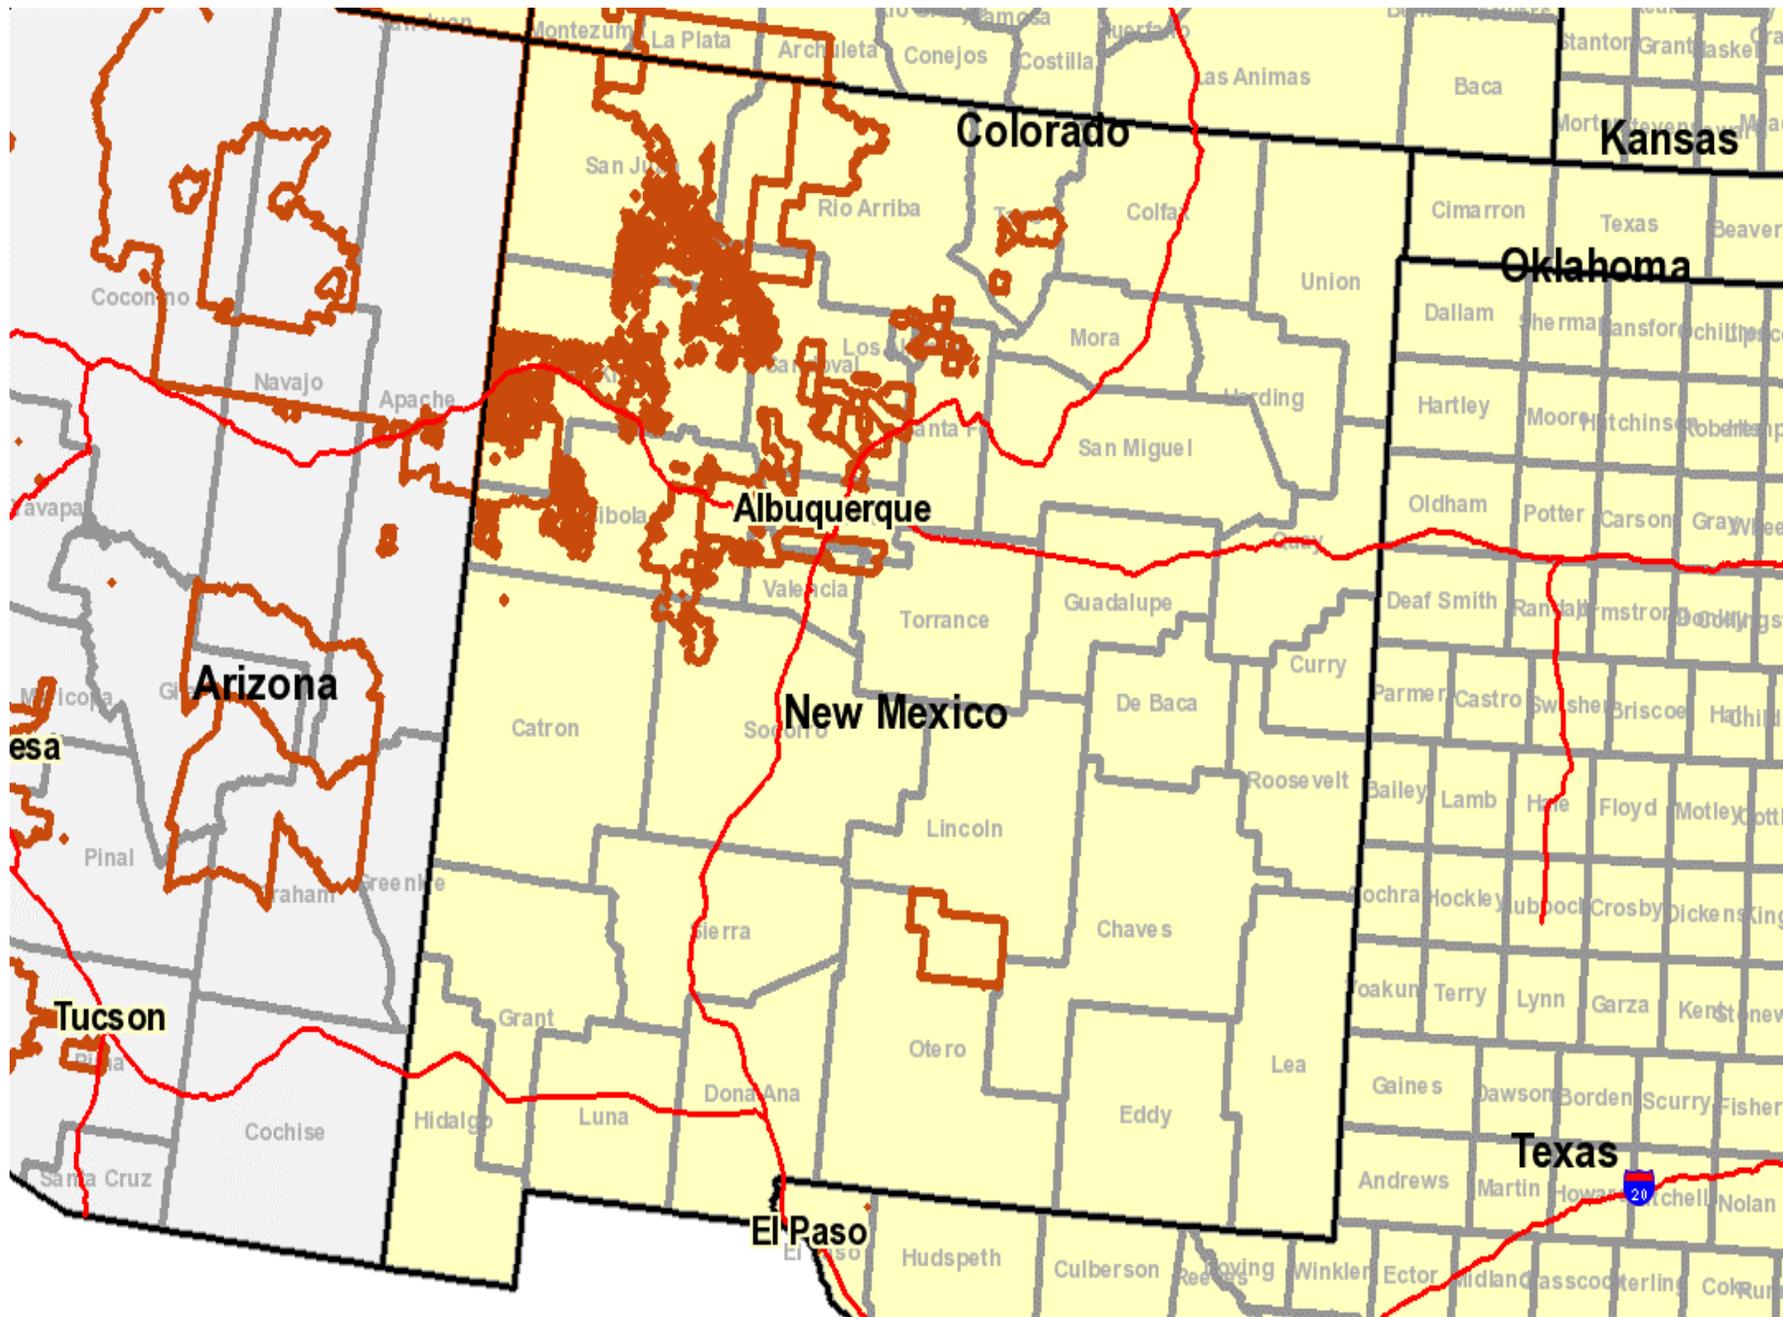

On the Map

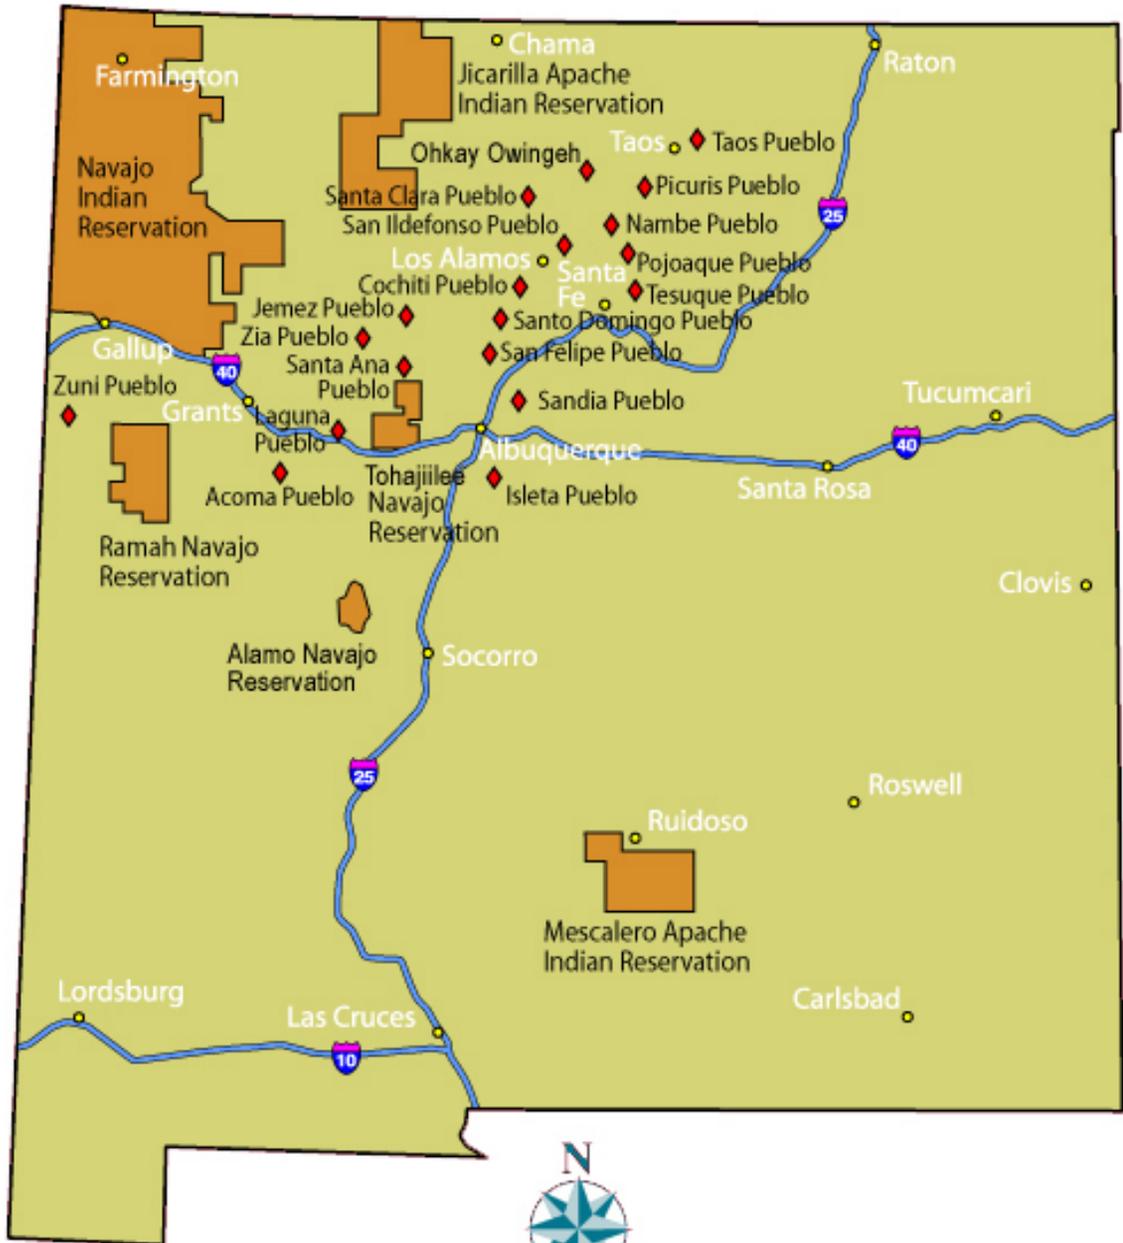

Michelle Doran

Economic Research & Analysis (LMI)

New Mexico Department of Workforce Solutions

Question from the
Secretary:
How many people are
employed on tribal lands?

Answer:

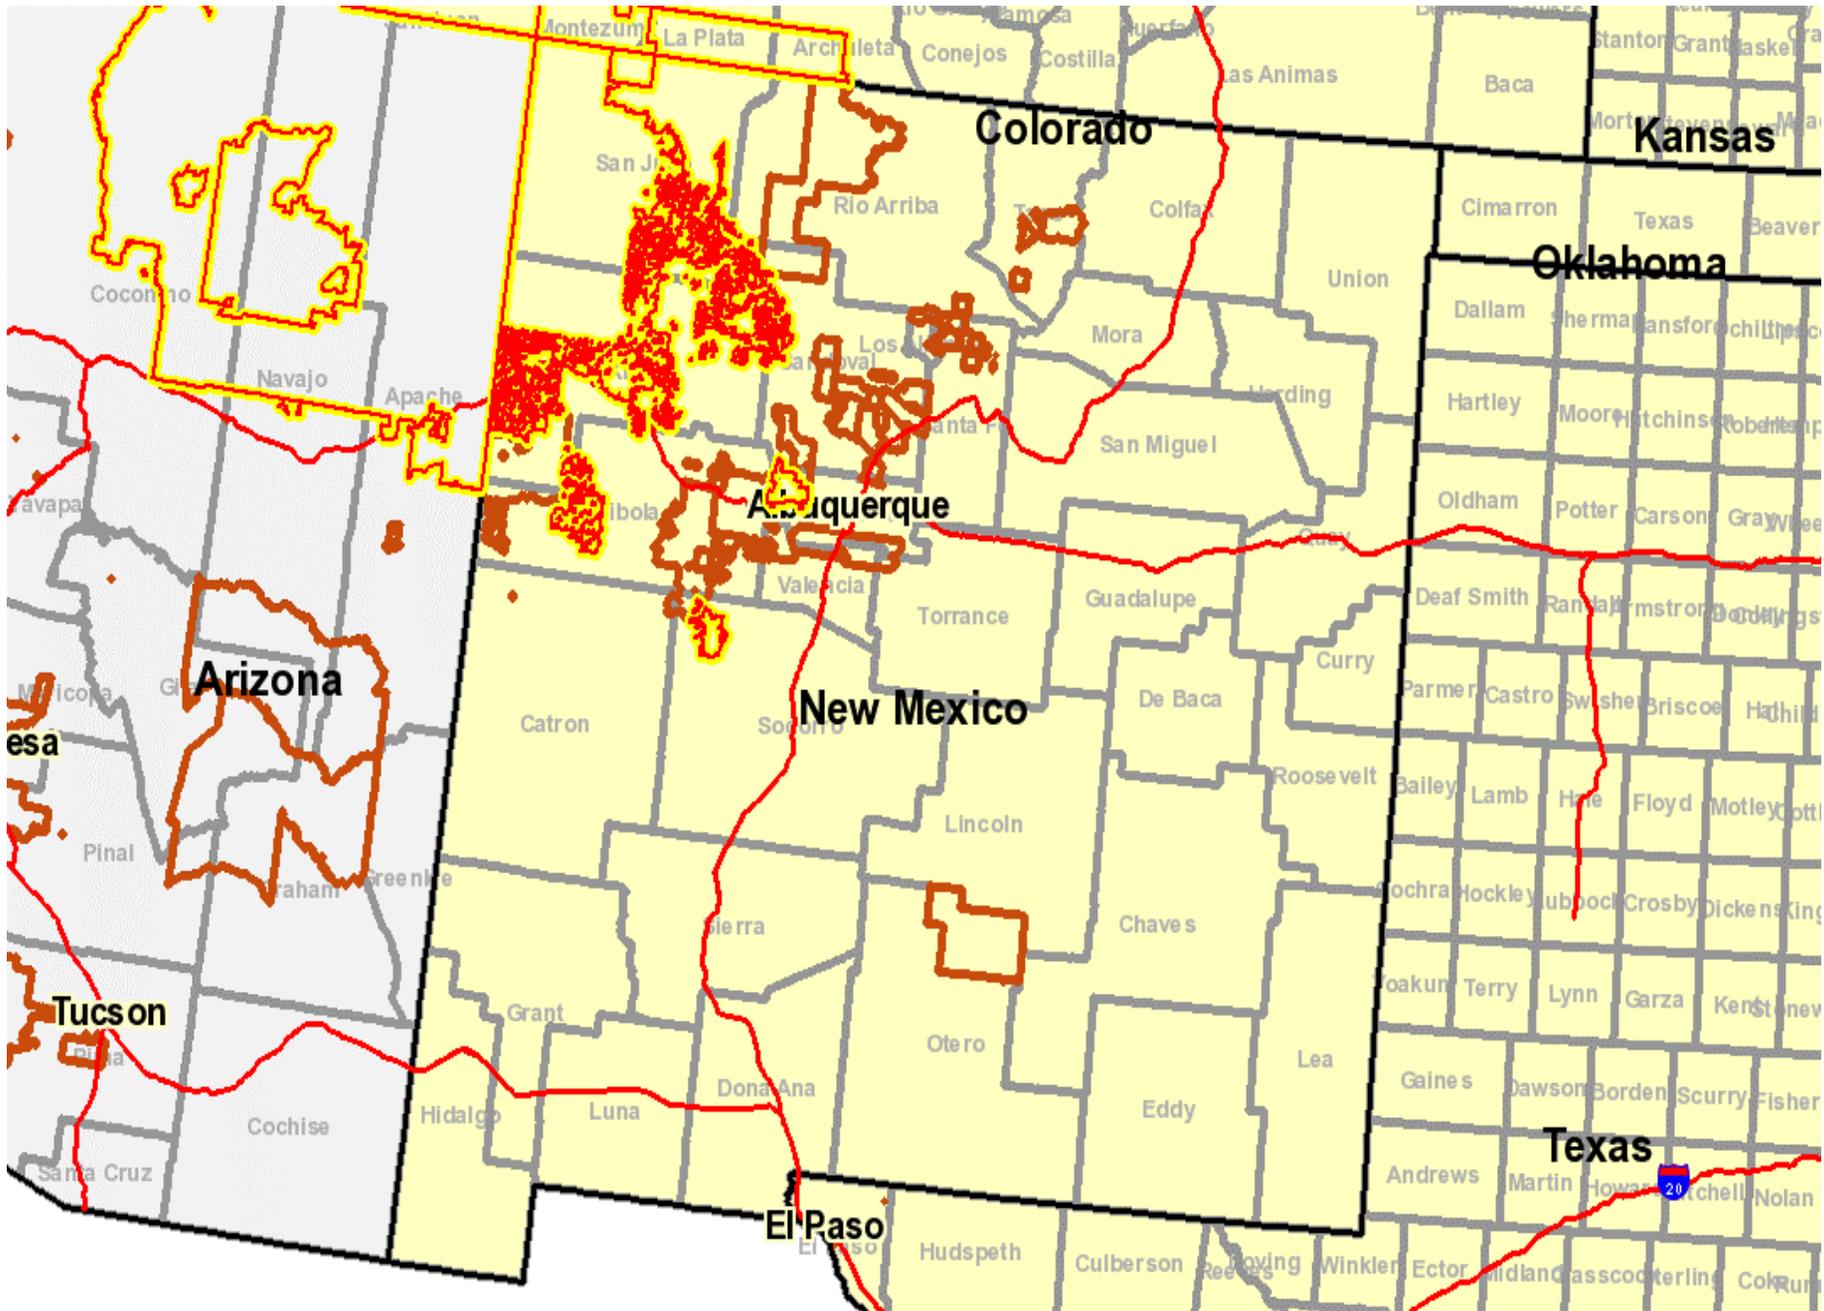

I have no idea.

On the Map can
answer this question,
partially, but not
completely.

Problem:

Tribal lands are in
non-contiguous areas.

Why is this information
important:

The dollars that people
earn are not staying on the
reservations.⁽¹⁾

Diversification is important
to economic development.

Conclusion:

We did not answer the question posed by the Secretary, but we did answer another valuable question using *On the Map*.
